

U.S.A. Cabinet Out Of Balance,

Uniquation.world Council Came to an End Clause in matter: "Worthiness U.S.A. Cabinet."

All Judges Who Could Brought in better or best Balance the Worthiness of U.S.A. Cabinet but didn't accomplished that:
"Have violated 2 written Law's:

- 1 Law: "Clause Assembling Court banks,"
- 2 Physical Nature Law: "Worth with 2 Scaled Measurement Oak Law.'

The to Assemble Court bank seen as a Worth must be so perfect as possible in it's representation of the to be represented Total Group within the Case's to be handled by that Court Bank. So, the to be represented total group within the case's to be handled by that Court Bank: "U.S.A. Cabinet," is to consider as the total inhabit Population of United States America who are to consider as: "50% Chromosome Female & 50% Chromosome Male," So, the U.S.A. Cabinet got to be: "50% Female Seats & 50 % Male Seats. (That means Double up Factor for U.S.A. Voting Rights.) & For 51% of the American Population who used there Voting Right It needed to be Prime President: "Bidden," & For 49% of the American Population who used there Voting Right It needed to be Vice President: "Trump." To accomplished 100 for 2, 2 for 1 and 1 for all.
