

Mission Acquisition Fungus Step 5:

"Instead Of Fungus Infected Grain As Food For Egg Producing Animals Serve Them Fungus Free Rice."

Cancer tumours are phenomenal to compare with truffles that revolved out of fungus traces.

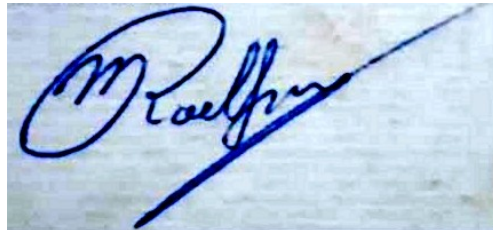

So we may not consume fungus and fungus traces.

Much food contains fungus traces this we got to annulated to do this in mission acquisition fungus.

Mission Acquisition Fungus Step 5:

All Grain to consider as Fungus Infected because of that the Egg production is infected with Fungus to so instead of Fungus Infected Grain as food for Eggs producing animals serve them Fungus Free Rice.

Yours,

A handwritten signature in blue ink on a light blue background. The signature is written in a cursive style and appears to read 'M. Roelfszema'.
