

New 14:2 Explanation by the GOD'S:

It is time true period: "Yellow zone volcano eruption," &

Global rescue plan: "Revive more anti-biotics with white Alg moult cheese."

Material needed in labour with Theory revive White Alg's:

- 1:1 A Machine to make a 4 equal-size prism with contains 4 hole rooms
- 2:1 1 Hole room for placing a Red Alg in;
- 2:2 1 Hole room for placing a Green Alg in;
- 2:3 1 Hole room to place a Yellow Alg in;
- 2:4 The tree algs got to be placed inside there room with a different of 120 degrees but with there 3 x double loaded photons shine out exact into the Fourth Room.
- 3:1 1 Hole Room Exact in the middle of the prism filed with the ingredients to revive a White Alg.
- 4:1 3 controllable Lasers to reach exact double photonic load the Red, Green & Bleu Alg.
- 4:2 1 Controllable Laser with colour same as The Photons inside a Green Alg;
- 4:3 1 Controllable Laser with colour same as The Photons inside a Red Alg;
- 4:4 1 Controllable Laser with colour same as The Photons inside a Yellow Alg.
- 4:5 This 3 Lasers shine inside the hole rooms by entering the prism from the corners.
- 5:1 3 Lasers who all 3 can release 1 photon into the 3 exact double loaded Alg's.
- 5:2 These three lasers will sine in to the prism into the 3 upper equal-size side's and the 3 photons go into there Alg through the centre of the prism
- 6:1 the Green, Red & Yellow Alg's Lasers have unique time of activation in calculated on same time point reaching exact double load Photons of all 3 Alg's
- 7:1 the 3 Lasers who will sine 3 x 1 photon extra into the double loaded Alg's must be don so wise & Exact on coordinates and release time that all 3 Alg's give as reaction triple shine out of each Alg half it's loaded Photons exact into the Epic centre of the prism (Into the to revive White Alg room).
- 8:1 If this process is accomplished born of the White Alg begins when The Triple Colours together Makes the Quantum Mechanica status: "Master," & Make the status of all physical objects inside the White Alg Room: "Slave."
- 9:1 If ingredients of the to revive White Alg are not correct and the result is a: "Black Alg," then do not open the prism but place it inside a MO4 bunker.
- 9:2 Do 1 great recalculation of the right ingredients to revive second process unanimous a White Alg.
- 10:1 All produced white Alg are reflecting all colours and can not become double loaded photonic White Alg.
- 11:1 All White Alg's My Exit there Prism in name of science based on Nature Law's.
- 12:1 All Produced white Alg's become a owner who has official part qualification Director of Moults cheese labour with meaning to revive more anti-biotics.
- 13:1 This Theory must get realisation after but better before the Explosion of yellow-zone Vulcan where because of the all Periodic Elements gets Possibility to rewire to All Periodic Elements and new unknown bacteria's and new unknown Viruses will be generated inside the volcano damp.
- 13:2 Because within 3 Day's The entire Oxygen zone will be changed into a not respirable chemical vapor for a minimal period of 21 Day's, the 4th day after the yellow zone volcano has erupt all animals in oxygen zone will lay death on the bottom of the earth and all world wide winds will be devilish winds and spread the new bacteria's and the new viruses from death creator fast into a other death creator so for those who survive the 21 day's must keep up there volcano mask and wear Sterile costumes and they will all get: "militarily work packed: "Collect all dead creators bring them to the corner of each road and burn them totally with use of benzenes to asses (To accomplish Total Planet Earth)"."
- 14:1 No human can survive the oxygen zone after the 21 Day's with is world wide infected with $\pm >10.000$ new bacteria's and $\pm >2.000$ new viruses, so revive more anti-biotics!
