

Hell March Code: "All Mushrooms & Truffle's Contain Cancer Occurring Toxin."

Dutch Food Centre informs official about Cancer occurring toxin: "Agaritine," what is part of Raw White & Brown Champignon.

Agaritine Revolved out of Fungus traces, The Phenomenal comparison of a tumour is a Truffle, A Truffle revolves out of Fungus traces and so does a tumour.

A Truffle

A Tumour

Agaritine information:

CAS-number: [2757-90-6](#)

The message that it considers a Cancer Occurring Toxic has been deleted illegal from Document.

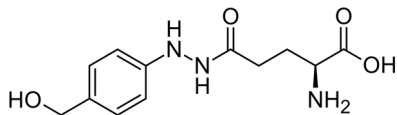

PubChem: [17688](#)

The message what stood written in 9.1.2. The Decomposing/ Detoxification Information have been deleted illegal from Document. Both deletes are ungrounded and a disappearance of important cancer occurring evidences.

Molecule Formulas: $C_{12}H_{17}N_3O_4$

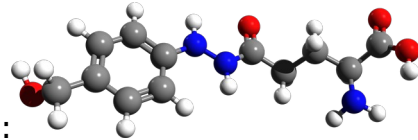

IUPAC-name: 2-[4-(hydroxymethyl)phenyl]-glutamohydrazide

SMILES: [O-]C(=O)[C@@H]([NH3+])CCC(=O)NNc1ccc(cc1)CO

Structure Formulas:

Molecule Model:

InChI: 1S/C12H17N3O4/c13-10(12(18)19)5-6-11(17)15-14-9-3-1-8(7-16)2-4-9/h1-4,10,14,16H,5-7,13H2,(H,15,17)

Decomposing process:

Boil Raw Agaritine Champignon in its total above Boiling Temperature 209 °C @1000 Pascal, Champignon Farmers do wrong detoxification by placing the Champignon in H₂O & CH₃OH (Mix of Water & Methanol.)

Explanation of Oxidation process what revolves in the first tumour cell:

Every First tumour cell always revolved by an Oxidation Process, Fungus is a chain reaction of a Oxidation process that is continues in the need for at least 3 Periodic Elements as: H Hydrogen, O Oxygen & N Nitrogen while the Fungus grows further. If fungus is consumed & it passes through the kidneys we talk than about Blood-Fungus, when the fungus building itself further the bi coming oxidation process can select the needed Periodic Elements what is already part of DNA cells / DNA Tissue becomes a sheared Brick-stone of Fungus & DNA when this happens a tumour-cell has than be realized.

So as Agaritine in Champignon all Mushrooms & Truffles contain Fungus traces in there Body/Head.

02-08-2022, End Conclusion:

All Mushrooms got to be deleted from International Food Market!

When we realize this, I came to an in calculation of Cancer Reduction of Major Value.

Sincerely, I stay in status of Doctrine,

Dutch Defence Citizen Ready: "Lieutenant: "Marcel Alexander Roelfszema"."
