

## Phenomenal Oncology Report:

Because stock science its the difficulties of Microscopic zoom in on the process where in the first E.M. Tumor cell occurs disappoints us we need to look it from a phenomenal science, by comparing tumors with truffles, yes that's mach, we know that a Truffle is pulled out of Fungus traces now we need to take the phenomenal conclusion that a tumor is pulled out of Fungus Trace and logic conclusion is that all Clients of Oncology with one or more Tumor Consternation have all consumed Fungus Trace infected food what we got to consider as Spoiled Food.

Fungus is a continues Process of Oxidation, So when a fungus oxidizes with D.N.A. Tissue and both share one or more Periodic Elements such as Hydrogen, Oxygen or Nitrogen that makes the D.N.A. Mutated with the E.M. Cell Mutation to consider as Fungus related, the First E.M. Tumor cell has than be borne. This Fungus Trace Mutated D.N.A. cell uses his in calculator to generated the D.N.A. code is E.M. Code and when this Mutated Code is build up the Physical results is always an E.M. Mutated Cell and so it goes on and the tumor becomes bigger and bigger till it is so big that it occurs a pressure what is the Anti pressure of vital organs, death will be the logic results. This type of cancer has the name: "Out of fungus-trace pulled oxidation-D.N.A. mutation Cancer."

a Truffle

a Tumor
