

At the end of Ice Crystal research,

the Theory: "Infinity Phenomenal time Breaking Theory," will fall as the necessarily puzzle piece into each other. The "Symmetric Positive Ice Crystal," is the mathematic drawing out come of multiple Dimensional skeleton axe systems drawn into each other from The 2Nd Dimensional skeleton axe system + the 3Th Dimensional skeleton axe system + The 4Th Dimensional skeleton axe system + the 5Th Dimensional skeleton axe system + the 6Th Dimensional skeleton axe system.

This mathematic drawing is necessarily to place in a the X-radiation reflections recorded movie of a released from gravity H²O Bubble who must been frozen to Symmetric Positive Ice Crystal So that can bee checked (By Optical by a human-eye research) if there where An out of balance of the necessarily continuous equal Presure on the H²O Bubble while it was frozen into a symmetric positive Ice Crystal.

The out the: "Infinity Phenomenal time Breaking Theory" resulting: "Symmetric Positive Previeww function," is shown in the above standing Youtube Movie.
