

# Clinical Dementia Explanation & Prevention.

Var = Variable

x = Unique

x = Variable

Object {x} = Can be anything.

Meridians are the roots of all the nerves meridians structures are also brains nerves.

Between the {{Little}}{Brain}} and the, {{Big}}{Brain}} meridians are the carrots of all Brains nerves structure. Before a brains makes physical nerve structure can exist out of rewired D.N.A., t.R.N.A. & m.R.N.A. brick stones first a meridians structure from the inside the {{Little}}{Brain}} grows into the {{Big}}{Brain}}. This meridians structure has an end point somewhere in the little brain here we talk about a brain section {x} and the end of all brain sections are rewired with the spleen.

with spleen is mend how spleen is written as an Organ in scientific Holy Book: "The Binas." Under chapter 84. with undersubscription the letter N. what has the Binas 84 title: Blood and blood circulations. & N Lymph vessels and lymphatic organs.

The Spleen has meridians structures with all Lymph vessels and lymphatic Organs.

Here follows the explanation of Clinical Dementia:

{x} = {{time}}{Length}}

the amount of {x}, time length by reactivation of a meridian structure must be a natural logic continues cycles and must be continue activity in the brains.

When a brain section it's meridians structure is for a period of a long time not reactivated {{Freezing}}{Of}{The}}{Brain}{structure}} occurs.

So Definition of Clinical Dementia =

{{Freezing}}{Of}{The}}{Brain}{Section}{structure}}

How to take position to not get the illness Dementia:

While you live your entire Life:

You must all object's used to make yourself intelligent while you grow up save and give them all coordinates in your living area so that all objects can be seen and touched.

by doing this you reactivates the meridians who are reactivated by this seen or handling the objects.

So you should strive: to learn and perform the ritual: Periodic Reactivation All Brain Sections.

All {{brain}}{sections}} to reactivate based on a timetable who continues after each other reactivates all {{Brain}}{Sections}} Logical wise. By doing this ritual you annulated: Dementia.

So we can definite that: Dementia do not gets activated after you do the Ritual with is called:

{{{Periodic}}{Reactivation}}>{{{All}}{Brain}}{Sections}}.

Three Points you must now to get not Clinical Dementia:

Point 1:

No longer observing objects who are the activators of meridians makes:

{{Freezing}}{Of}}{The}}{Brain}}{Section}}{structure}}

Point 2:

The Process of new brain sections to bee borne what is automatic is the result after being in contact with new vibrations such as:

Smelling,

Tasting,

Smelling and tasting at the same time,

Feelings,

Hearing,

Seeing or

all new vibrations Noticed in BA19 (Brodmann Address 19)

Point 3:

The Human Brain has the capacity to live the Law:

"What you notice you must handle."

Its capacity is really enormous and give a human a lifetime possibility to remember everything what they handled after being vibrated by all unique issue's the noticed there entire life no matter how old you will become, but a brain who can remember everything is only reachable with learning and performing the ritual:

{{{Periodic}}{Reactivation}}>{{{All}}{Brain}}{Sections}}.

The End Of The Briefing about the issue:

Clinical Dementia.
