

Farmacetic Industry who presented the new medicine: "L-Dopa," to the world in a bottle with 1 size hard capsule while the could bring it to the market as a: "D.N.A. Rewired Medicine."

This medicine has the meaning to bring a client his or her dopamine level back into a Natural Human dopamine System.

L-Dopa must redeploy this medicine to a "D.N.A. Rewired Medicine."

The can accomplishes mission without D.N.A. Stripe.

The simply must use the telemetric possibilities "Bidirectional" And ask there clients several questions such as:

Muscle B.M.I., Fat B.M.I., Length, Weight and Age also they should under questioning there clients about there heroine addiction.

So that Farmacetic Industry of the medicine L-Dopa can calculate in a precise cure for all unique treatment with meaning to bring them in a the future to a Self generating and Natural Human dopamine Level.

Yours, Military Parate Lieutenant: "Marcel Alexander Roelfszema."
