

Psycho-somatic Illness & Treatment.

Psycho-somatic Illness is caused by too less quantum mechanical load of electrons inside the little brain, those electrons are part of electric that shoot stay inside the little brain for normal function of the little brain with course normal healthy feeling in your entire somatic body.

Psycho-somatic Illness is explained by multiple people who described the somatic feeling of pain(s) as all unique locations and types of pain.

The best treatment is to shine pure white light with a pure bright shining light lamp who you must shine for a {x} amount of seconds pro eye in both eye's {x} b may not be longer than the white spot to observe in the shins pressed eye that is disappeared within 5 minutes pro {x} seconds treatment. The Shined in Light will go take place in the load of the out of balanced electrons inside your little brain.
