

The Change of the Power to Rule a Country:

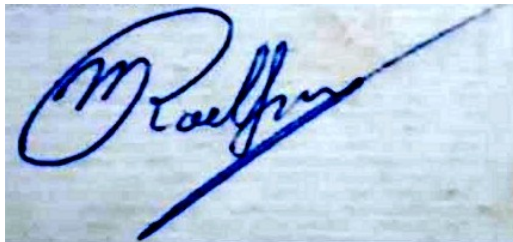

Conform the Evangelic Bible verse God's-Kingdome:

“Only the Experience Knowledge may be and have the power to rule a Country.”

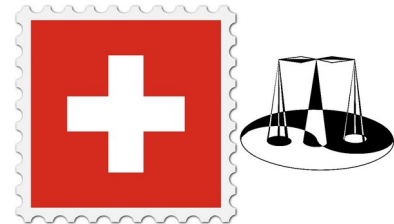

So Civilian voting right can only be right when the voter is in the possibility to choose one person who is the experience Knowledge person to handle correct all cases within a parliament Period. Because of the missing Knowledge of the issue's and bi belonging meaning of all parliament cases the now a day's voting write is not one and equal to the Evangelic Bible verse God's-Kingdome and because of that the need for correction.

So I come up with the following proposal: To rule the a Country not with politic parties but only with Associations & in stead of national voting right the right to become a Association Meaning Member of any legal association, this for in exchange for no compensation, So that everybody who have equal interests as an Association can collect there one have to say so point.

Sincerely and in status of doctrine,

[Marcel Alexander Roelfszema](#)
