I understood that sometime if we are dreaming we dream the annulated dreams of others. I start praying to the White Devil and said I make you lawyer of Dr.eams now tell me... So I asked the White Devil if you take the Evangelic Annulated memories with you why is it that after you take them my beloved ones or even random others can see my annulated Memories in there Dreams?

The White Devil answered if you do not want that then you shoot not placed it inside you "Mental Black"

I say but it are memories of worlds what dos not represent me and I can not use them so I annulated them as memories so that I will not live those dreams. The White Devil Say that that is right thing to do, but system of Dr. evangelic annulated memories is so switched, I can not Change, I Say to him: O really not, I made you Lawyer of Dreams what status you must get from the highest god to change the system because I am the Honourleaderprince of the highest God's and can arrange your redeployed status so you can solve that the evangelic annulated memories will not longer visible for others, that would help all humans allot! Because the Dream Law: "Do not rune real live with information revolved out of dreaming" is not world wide understood and not lived! White Devil Great Helper of Humans What must be you status to change the possibilities of the Dr.eam System. It must be change for all Good! So that nobody Rune Others there live with information revolved out of dreaming the annulated memories of others.
